ATTEMPT TO ENLIST VILLA IN REVOLUTION FAILS

"I Have Decided to Remain at Peace," Was Answer Given by Former Bandit.

Mexico City, March 28.—Attempts to enlist Villa, former bandit, in Carranxista revolutionary cabal against Obregon government has failed, according to the newspaper, La Noticia. A delegation of fodmer Carranzista army officers called on Villa at the latter's ranch recently and asked the bandit to join General Murguia in a revolt to overturn the Obregon administration. Villa listened to the overture and then replied: "When I was fighting alone no one helped me. I have decided to remain a peace man permanently and Aguilar nor anyone else can shake this decision."

DECAYED TOOTH PREVALENT DISEASE

70 PER CENT MARYVILLE PUPILS HAVE CAVITIES.

BUT FEW USE BRUSH

Sugar Great Enemy While Milk Products Builders—Should See Dentist Twice a Year.

Decayed teeth is one of the most prevalent diseases, according to Miss Blanche Laughlin, Red Cross nurse. Miss Laughlin has examined virtually all of the children in the Maryville schools and a number of those in the rural schools.

"It has been said that 95 per cent of one hundred and six million persons have dental cavities. The health survey of the Maryville schools showed that 70 per cent of the school children here have defective teeth. It showed, also, that only a small per cent of the children use the tooth brush regularly. As most of the dental trouble begins on the surface of the teeth and works in, much disease could be avoided by the use of the tooth brush.

"One dentist in an eastern city proved through a dental clinic, that 50 per cent of the tooth troubles could be avoided by regular and frequent use of the tooth brush.

"Prevention is much less painful than cure. The well being of his dental family was increased by the clinic. He carried this into the schools and established a system of dental care, which reached 20,000 school children and in six years had reduced the cavities 50 per cent. The attendance of the pupils in the schools increased 50 per cent. A number of children, who usually lose time from bad teeth were kept in school because such trouble was prevented. The school board of that city are considering making dental hygiene a requirement as about 70 per cent of the ills in school life can be eliminated.

"Improper diet causes dental defects too," Miss Laughlin says. "The correct feeding of a child from birth to 12 years old would almost eliminate dental troubles. It is hard to convince parents of that in this land of free sugar, soft white bread, and over-refined cereals.

"Every person should be his own sugar refinery. Fruit, vegetables and milk contain sugar; bread and potatoes, starch, which is changed into sugar. This is all the sugar that the body needs. Refined sugar is the greatest enemy of the teeth, someone has said.

"Milk and milk products," Miss Laughlin asserts, "are good tooth builders. Toothache is not a necessary evil. Many ills of childhood and even old age could be prevented by care of the teeth.

"The bad mouth condition of many of the children in this county is appalling," Miss Laughlin said. "Many of them will be old men and women at 30 with diseases of the heart, kidneys, joints or nervous system. If all the boys and girls, who have decayed teeth, infected gums or green stains around the roots of the teeth would go to the dentists for dental work and cleaning at least twice a year; then form a habit of thoroughly cleaning the teeth at least twice a day, conditions of health would be better and much illness prevented.

"The old family tooth brush which hung by the kitchen sink, and was used only on stated occasions is no longer sufficient to insure good mouth hygiene. A tooth brush for every member of the family used every day, at least twice a day is a good slogan."

RUSSIANS RESCIND ORDER TO ABOLISH MONEY AS MEDIUM

Soviet Government Orders That Commerce be Carried On With Such Standards.

Moscow, March 28 (Copyrighted.)—The decision of the Russian government to abolish money as a medium of value and exchange has been rescinded. This announcement was made today by Leshava, head of the Russian foreign trade board in announcing Russia's plans to resume trading with foreign nations. Leshava said, "Naturally we cannot use money, just yet, for our internal commerce. However, we intend to return to the money standard. Commerce will be carried on money standard and is being so ordered by the soviet government. Merchants will repay to the state goods they get from peasants. Other customers will pay in goods for products they receive."

OLD BOREAS ON JOB YESTERDAY SPOILS EASTER PLANS

11 Above This Morning—Still Colder Weather Predicted Tonight.

Despite the fact that preparations had been made for a glorious Easter celebration in all of the churches yesterday, the thermometer registered 23 above at 7 o'clock in the morning. Most of the churches were filled notwithstanding the cold snap.

Dainty white frocks, which were to have been worn, as well as beflowered bonnets were laid aside for more comfortable garments of warmer texture. Furs were much in evidence.

Old boreas was on the job and more than one little flower bud was nipped. The peaches were chilled and some even say frozen, but a few still remain untouched by the winter blasts.

This morning it was 11 above. Still colder weather is predicted for tonight and if the potatoes are not well covered Jack Frost will get them. The peaches are said to be doomed.

Kansas City, March 28.—The Easter blizzard which swept Kansas and Missouri followed by a killing frost practically wiped out the fruit crops, according to meteorologists today. The damage will exceed a total of ten million dollars. Tens of thousands trees were killed, destroying peach, plum and pear crops.

STORE AT GRAHAM ROBBED LAST NIGHT

ABOUT $1,500 OF SILKS AND OTHER ARTICLES TAKEN.

NIGHTWATCH WAS TIED

John Geyer, a Watchman at the Store, Was Covered by Bandits—Car Traced to St. Joseph.

The general merchandise store of Minor Bros. & Tull at Graham was robbed last night of about $1,500 of silks, woolen goods, suit cases, silk shirts, jewelry and manicuring sets. John Geyer, who is a watchman at this store, was covered by three men and was tied up. Geyer who generally carries a gun, in searching for it was unable to find it. It was about 3 o'clock this morning. Geyer was able to get loose about thirty minutes later and gave the alarm.

The authorities have been able to trace the car the robbers were in to two miles south of St. Joseph, where a Hudson car was abandoned. In the car were boxes which had been taken from the store, but the goods were gone.

The men came in through the basement, having pried open a door there. Three men were all Geyer saw. After taking out several boxes and articles the men were gone about fifteen minutes and came back a second time, when they stayed a short time.

Sheriff Steve A. Roach went to Graham this morning.

LAWS ARE PASSED FIXING BASIS OF OFFICIAL PAY

Population Will Be Arrived at by Multiplying Vote by Three and One-Half

The method of arriving at the population of the various counties to fix the salary of county officers as a result of the adoption of equal suffrage was passed by both branches and now goes to Governor Hyde for his approval.

The measures provide that the population of counties will be fixed by multiplying the vote cast by three and one-half instead of five as formerly.

The vote being given women almost doubled the vote and if some action had not been taken the salary of most all county officers in the state would be greatly increased. It is believed the basis fixed will result in a slight increase in all instances.

MISS BEULAH BRUNNER WILL VISIT SCHOOLS THIS WEEK

To Confer With Students At Weston, Missouri City and Orrick.

Miss Beulah Brunner, instructor in the State Teachers College, who spent Easter in St. Joseph visiting Miss Anna and Mayme Dooley, will spend several days visiting schools in the interest of the college. Miss Brunner expects to go to Weston Monday to confer with the students and teachers, from there she will go to Orrick and Missouri City. At Orrick and Weston Miss Brunner will talk to the senior class.

At Weston the superintendent of schools as well as the principal of the highschool are former students of the college here. During the spring term different members of the faculty will visit the schools in this part of the state to tell the pupils what the college here has to offer them. The enrollment has increased each term of this year over that of last.

It is thought that this increase will remain the same for the summer term that it has for the other terms. Many of the rural teachers are planning to take work that will apply on their county certificates. The grades on such subjects are good for a number of years. The Nodaway County teachers have begun planning to go already.

The summer term has usually the largest enrollment of any because the teachers enter for that time. Several weeks ago President Richardson said that if the county unit bill passed it would increase the attendance at the schools because better qualified instructors would be demanded and the teachers would have to take work to live up to this requirement. The county unit bill has passed both houses and awaits the signature of the governor.

As a result, Governor Hyde said, he was considering signing the bill. He had not attached his signature at a late hour Saturday night.

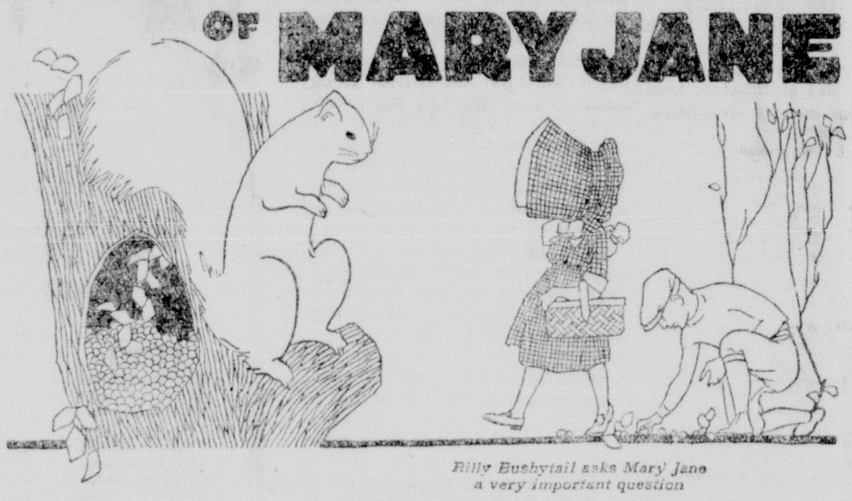
THE MERRY JOURNEYS OF MARY JANE



Billy Bushytail asks Mary Jane a very important question

How Mary Jane and Billy Bushytail Went Into Partnership

ONE day in November, after the frost had come and split the shells of the big Walnuts, Mary Jane and Bobby went out with a basket to gather some. The basket wasn't more than half full before Billy Bushytail, the big gray squirrel, came and said:

"Mary Jane, what on earth are you going to do with all those nuts? You don't bury any like I do, and you can't eat them all yourself. And Mary said "You don't have to eat all the nuts you gather, and you don't know anything to do with nuts except eat 'em. If you help fill this basket and carry it home, I'll show you how to make the most delicious treat you ever tasted."

Billy Bushytail hurried up and helped fill the basket. Then they went home and cracked the nuts and took the kernels out, and put a lot of Mary Jane Syrup in a big pan on the fire, and boiled it and boiled it till the wonderful smell was all over the neighborhood.

After the Mary Jane Syrup cooked a long time they poured it in big bread pans, and Mary Jane and Bobby and Billy Bushytail threw nuts in this candy, where they sank. After it was cool they broke it in pieces and had a party, to which all Mary Jane's friends were invited.

They told stories, played games, and had delicious Mary Jane candy with nuts in it until everybody was so tired that they could hardly keep their eyes open. Then they went home and went to bed, and dreamed about great mountains of Mary Jane taffy and hundreds and hundreds of nuts in it, and all sorts of good things to eat made out of Mary Jane Syrup.

It Beats, as it Sweeps, as it Cleans

Only the Hoover BEATS as it sweeps as it suction cleans. So in a Hoover you have more than an electric vacuum cleaner. You have even more than a vacuum cleaner and an electric sweeper. You also possess an electric carpet beater. Is it not apparent why the Hoover cleans CLEAN?—Why it is being purchased in overwhelmingly greater numbers?—Why its makers are the world's largest? Concluding advantages of the Hoover are: That it correctly straightens any crushed-down nap. That it rejuvenates colorings and patterns. That it is guaranteed to make all rugs and carpents wear much longer. Just run your Hoover over: beat, sweep, lift nap, restore colors and vacuum clean in one operation!

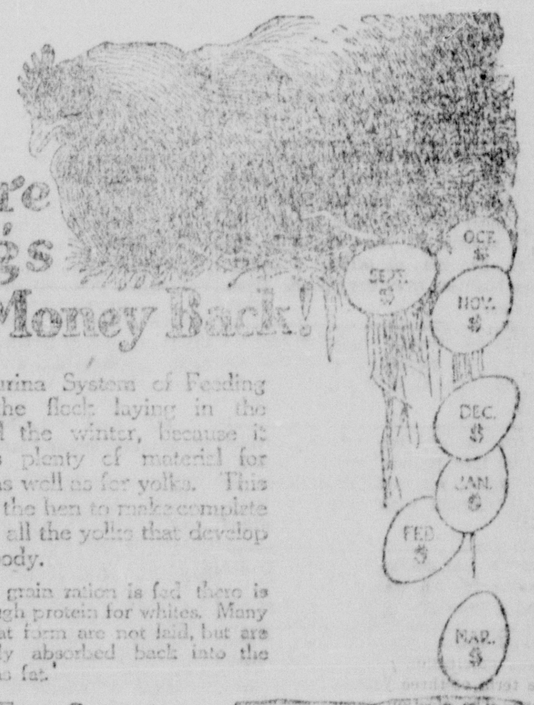
Only the Hoover beats out buried dirt—indoors, dustlessly. The carpeting is fluttered more than a thousand times each minute upon a cushion of air. Deeply-lodged grit is loosened and shaken forth. Beaten to the surface, powerful suction removes it.

Only the Hoover sweeps while it beats. Its Beating-Sweeping Brush is patented. Whizzed like airplane propellers, twenty-four large soft bristle tufts make countless sweeping contacts. Even hairs, lint and threads that cling like cockle burs are speedily collected.

Let us demonstrate the Hoover in your home—see what it will do on your own rugs, compare it with any sweeper you wish and you will be convinced that it has no equal.

Call No. 99 on the Hanamo or No. 426 on the Farmers phone and ask for a demonstration—it will cost you nothing.

Our remodeling is progressing very nicely and we hope to have it completed within the next thirty days. This will give us an excellent sales and show room for the Home Furnishings, upstairs. Our stocks of wall paper, rugs, draperies, linoleum and other furnishings is very complete now and offers some wonderful values.



More Eggs or Money Back!

The Purina System of Feeding keeps the flock laying in the fall and the winter, because it supplies plenty of material for whites as well as for yolks. This enables the hen to make complete eggs of all the yolks that develop in her body.

When a grain ration is fed there is not enough protein for whites. Many yolks that form are not laid, but are eventually absorbed back into the system as fat.

More-Eggs Guaranteed

Purina Chows, when fed according to directions, are guaranteed to make hens lay more eggs than any other feed, or the money paid for Purina Chows will be refunded.

SCHOOLS TO CELEBRATE CENTENNIAL

PROGRAM WILL BE GIVEN ON LAST DAY BY AGR. PUPILS

OUTLINE TO BE PREPARED

Big Celebration At State Fair August 8 to 20—Committe Working Now.

The Nodaway County schools will celebrate centennial year one day before school is out, according to Bert Cooper, superintendent of schools. A number of the vitalized agriculture schools will have a program on the last day of school. An outline of study has been prepared for these schools and the children will be prepared to give a program on the centennial.

The centennial year will be celebrated during the state fair at Sedalia August 8 to 20. An unusually elaborate program has been prepared for this time by a committee in charge of the centennial program.

The schools in Maryville will take up the centennial in their history class work. As yet no special program has been prepared. It is likely that one of the assemblies of the spring term will be used for a centennial program.

JIM MIDDLETON'S DRAY TEAM RAN AWAY TODAY

Horses Raced Down the Alley Past Democrat-Forum Office Scattering Trash and Debris

The team belonging to Jim Middleton, drayman, who was loading some trash back of Eversoles dry goods store, ran away this morning and damaged the wagon considerably.

According to Middleton he had just finished loading his wagon when two boys came down the alley. One of them either raised his hand in front of the horses or threw a piece of paper in the air and they rared up and started to run. Middleton who was just climbing on the wagon was unable to reaih the reins and was thrown to the ground. The horses raced down the alley past the Democrat Forum Office, and Silas Kissinger who was working in the rear of Haines store tried to stop them but was unable to do so. The wagon, scattering trash and debris on its way, struck the corner of the Price Furniture Store and lost the right front wheel. The horses kept right on and when directly behind the home of C. C. Craig the wagon swayed to the right and tore down a portion of the rear fence belonging to Mr. Craig. This slightly stopped the horses and then the wagon struck a telephone pole and stopped them entirely. The front of the wagon was crushed but the horses were unhurt.

To quote Middleton, "I dont see how them kids got from in front of one team, but I'm glad they didn't get hurt."

CHILDREN TO STUDY BEAUTIFYING HOMES WITH FLOWERS

Planting of Certain Shrubs and Blooming Plants Suggested —C. C. Leeson Talks.

The children in the vitalized agriculture schools are to study the beautifying of the home surroundings for the next two weeks. Plans of planting are to be discussed and those most desirable for particular locations suggested. Plans of the school grounds are to be drawn by the pupils and improvements planned that will be permanent. This work was discussed at the conference Saturday afternoon. C. C. Leeson, instructor at the college, made a talk on beautifying the grounds. The following suggestions might be used by others than teachers:

Monday, April 4.—Start hardy annuals in tin cans; four o'clocks, scarlet runner, bean, cobea, zinnia, vinca, French marigold, nasturtium. Later take home and plant. Help the children and show best method of planting.

Tuesday, April 5.—Bring plants of hardy perennials from various homes and set along fence where not too near trees. Hollyhock, golden-glow, Sweet William, gaillardia, chrysanthemum.

Wednesday, April 6.—Make bed of wild flowers in shade of building, not too close, and not in way.

Thursday, April 7.—Let different pupils in turn bring a bouquet for the school room.

Study the floweds brought, in nature study, art, how to grow, how to arrange bouquet, etc.

Friday, April 8.—Plant some native trees or shrubs in proper space for shade, back ground, screen, or border. Do not plant where play space will be interfered or whede children readily tramp or often congregate.

Mrs. J. E. Stover of Omaha, Neb., was the guest of her sister, Mrs. Irvin Bartram, Easter Sunday. Mrs. Stover returned home Monday morning.

Death of Mrs. Hink

Del Mar, California,
March 20, 1921.

Editor Democrat-Forum:

As the dove returns to its nest after a long flight, so does the heart of the wanderer return to its Old Home when in sorrow.

Twenty one years ago, my father, mother and myself left our old home and came to California, where my brother, S. N. Hink, lived. Eighteen months later that dear brother passed away. Six years ago my dear father fell asleep, and now the little mother has joined them and I am left to come back in spirit to the old home to join my dear sister, Mrs. Eva Dawes, of New York, in telling of our loss.

Few of the old friends remain in Maryville, but we will slip into our old home and whisper our sorrow to each other beneath its sacred roof.

The trees our dear ones planted, the lilacs they loved so well, are they in bloom I wonder? The robin that nested in the great tree, and the dainty wrens at the kitchen door, our dear ones loved them all.

"The Old Home" hallowed by association, is ours still, in fancy, gone are our loved ones, few are the old friends left to greet us, but we come to tell our loss.

Clara Adaline Newcomb Hink born near Rochester, N. Y., December 23, 1838, died in San Diego, California, February 25, 1921. Mother lived with us except one year spent with her nephew, W. B. Sawyer of Galt, California, after our father's death. A good wife, a good woman, a good mother.

She was in fair health until six weeks before her death, then like a child went to sleep. She looked like a child indeed who had crept into a basket of flowers and gone to sleep. We placed her by father's side until death shall be no more.

My father's brother, S. T. Hink of Rutherford, New Jersey, lives at an advanced age. His last letter expressed the thought of joining his dear brother and sister soon. And so the procession moves on to join the "Silent Majority" and we are left, but we sorrow not, as those who have no hope of a future.

Mrs. Hink's descendants are her daughters: Mrs. Eva J. Dawes, Mrs. Debbie Pittman. Grand children are: Mrs. Ines Dawes Schwarts, Beloit, Wis., Leland G. H. Dawes of New York City; Roy Olephant Dawes, Portland Point, New York; Clarissa E. Lou Pittman, Del Mar, California.

Mrs. C. B. Pittman,
Del Mar, California.

COUNTY SUNDAY SCHOOLS CELEBRATE DECISION DAY

21 Children Signify Intention of Joining Church—Offering Taken for Orphans' Home.

The Sunday schools of the county remembered Easter in some special way yesterday. At the First Christian church a decision day service was held at which 21 children signified a desire to join the church. An offering for the Christian Orphans' Home in St. Louis was taken at the Sunday school service and at the evening service when the children presented the needs of the home.

Mrs. Irvin Bartram will go to St. Joseph Tuesday to spend the day with Mrs. J. C. Beegle of that place.
